ChiliCoin (CHILI) Whitepaper

I. Project Overview
- **Project Name:** ChiliCoin (CHILI)
- **Total Supply:** 1,000,000,000 CHILI (6 decimal places)
- **Project Vision:** To build a global digital ecosystem for the chili industry. This will be achieved by empowering agricultural production through blockchain technology, providing supply chain management, community rewards, and financial services. The project aims to realize an efficient, transparent, and global chili industry.
- **Mission:** The ChiliCoin project aims to connect chili growers, processors, traders, consumers, and investors on a decentralized, trust-based, and highly efficient ecosystem.

II. Core Value & Motivation
1. **Industrial Finance and Stimulation:** To address the financial needs of the agricultural industry.
2. **Smart Agriculture and Digital Farming:** To implement technologies such as pest and disease identification, drone-based analysis, AI-driven quality checks, and product traceability.
3. **Community Governance and Participation:** To foster a community-driven ecosystem.
4. **Cross-Border E-commerce and Globalization:** To facilitate international trade and market reach.

III. Token Design
- **Token Name:** ChiliCoin
- **Token Ticker:** CHILI
- **Total Supply:** 1,000,000,000 CHILI
- **Decimals:** 6
- **Token Standard:** ERC20 / Conflux eSpace Compatible Standard.
- **Issuance Mechanism:** Phased release, total supply is not inflatable, and users can freely sell and destroy tokens.

Phased Release Plan:
- **Initial Batch:** 100 million CHILI (at launch)
- **Months 1-6:** 5% of the total supply released each month.
- **Months 7-18:** 5% of the total supply released every two months.
- **Months 19-24:** 5% of the total supply released every month.

Token Allocation:
- **Ecosystem Incentives & Airdrops:** 30%
- **Project Team & R&D:** 20%
- **Marketing & Partnerships:** 20%
- **Reserved Fund & Treasury:** 15%
- **Investors & Strategic Partners:** 15%

IV. Technical Architecture
1. **Blockchain Foundation:** Built on the Conflux eSpace DEX; will launch an ERC20/Conflux

standard token.

2. **Smart Contract Applications:** Includes multi-sig wallets, airdrop and reward distribution, and community governance.

3. **Smart Chili Farm and Factory Hardware Integration:** IoT devices will interact with the on-chain system.

4. **DEX/CEX Listing and Trading:** Initially launching on Conflux eSpace DEX, with plans for subsequent listings on OKX and Binance.

V. Ecosystem Development Roadmap

- **Phase 1 (Completed):** Initial token contract deployment, preparations for the first round of airdrops, and community building.
- **Phase 2 (Short-term):** Launch on Conflux eSpace DEX and initial agricultural application trials.
- **Phase 3 (Mid-term):** Integration of smart farm hardware with the AI system and establishment of the chili asset management backend.
- **Phase 4 (Long-term):** Integration of the global chili industry chain, listing on Centralized Exchanges (CEX), and expansion of cross-border payment and ecosystem support.

VI. Investment and Partnership Strategy

- **Financing Plan:** 20 million USDT
- **Partnerships:** Seeking collaboration with agricultural enterprises, technology companies, and trading platforms.
- **Profit Model:** Revenue will be generated through platform service fees, hardware sales, and the appreciation of digital assets.

VII. Security and Compliance

- **Multi-Signature Management of Funds:** To prevent single-point-of-failure risks.
- **Smart Contract Audits:** All smart contracts will undergo rigorous security audits.
- **Compliance with Exchange Requirements:** Adherence to the security standards of partner exchanges.
- **User Privacy Protection:** User data will be encrypted.

VIII. Team and Vision

- **Project Owner:** Thofstores (Operating entity: A Dubai-based company, currently under formation).
- **Brand Positioning:** A full-industry-chain technology service provider for agriculture, food, medicine, cosmetics, and wellness.
- **Official Website:** 🔗 http://chilicoin.thofstores.com
- **Email:** 🔗 chilicoin@thofstores.com
- **Vision:** To establish ChiliCoin as the core value token for the global chili pepper industry chain, creating a comprehensive ecological closed-loop that integrates production, supply chain, finance, and community.

IX. Contact and Community

- **Official Website:** 🔗 http://chilicoin.thofstores.com

- **Email:** 🔗 chilicoin@thofstores.com
- **Community Channels:** Telegram, X, Discord
- **Global User Participation:** All users are welcome to participate in community governance.
